MONDAY, MARCH 11

Sophia and Sergio worked with Fete Collection to create these tawny foil wedding invitations. The set featured Evelina style hand calligraphy. They paired tawny foil and pewter letterpress with a tawny foil edge to create an overall neutral palette. The couple created this suite their own with nods to their venue in Columbia in mind. Finally, a custom map liner in pewter brought the set together.

FRIDAY, MARCH 15

Pulp and Ink helped us to create these navy and gold foil birthday invitations for Tracey's 50th birthday. Using navy letterpress as a base, they brought in names as well as other important elements in gold matte foil for emphasis. The couple chose to pair a text-only front with a custom pattern on the back to add a playful spin to this look. Finally, a gold matte foil edge tied the color scheme together.
